

## Decision points as regards Golf Carts on Greater Pine Island

(1) Should golf carts be allowed on any streets in Greater Pine Island?

Alden Pines Golf Course Community?

Downtown St James City?

Mobile Home Communities?

Other residential subdivisions?

Rural residential and farm areas?

Downtown Bokeelia?

Matlacha?

(2) Should golf carts be allowed on Stringfellow Road? Most people say no, but where should the lines be drawn?

(3) Ditto as regards Pine Island Road?

(4) Should headlights, brake lights, turn signals, and windshields be required for day as well as nighttime use?

(5) State law requires golf cart users on roads to be over 14 years of age. Should we increase that to 18 on Pine Island?

(6) Should road use of golf carts be allowed not only for licensed drivers, but also for handicapped drivers? With proper sticker? Over 18?

(7) Should golf carts be allowed on the Bicycle Path? Most people say no, but we now have very limited use by some handicapped persons. Should that be made legal? How do we avoid abuse of the privilege if approved?
